	Application:	Compact fixtures designed for medium to large club installations, small to midsize broadcast applications, Corporate A/V touring. Highlighted features include static and rotating gobos wheels, color mixing, and a high CRI filter.	Compact fixtures designed for medium to large club installations, small to midsize broadcast applications, Corporate A/V touring. Highlighted features include static and rotating gobos wheels, 4 dual axis framing shutters, color mixing, and a high CRI filter.	High output fixtures in a small and lightweight frame developed for large venues and arena sized productions. Equipped with CTO, rotating and static gobos, plus an animation wheel.	High output fixtures in a small and lightweight frame developed for large venues and arena sized productions. Equipped with CTO, dual rotating gobo wheels and 4 dual axis framing shutters.	Large format tours, where having extra rotating gobo wheel, prism, frost and independent control of the CRI is seen as an advantage.	Large format tours, where having extra rotating gobo wheel, prism, frost and independent control of the CRI is seen as an advantage. Includes 4 blade framing shutters.
