

SONANCE

BEYOND SOUND

Sonance is an American based, privately held company in San Clemente, CA with nearly 40 years' experience satisfying discerning homeowners, architects, and interior designers alike. Not only is Sonance recognized as the inventor of in-wall and in-ceiling speakers, it has held the position as the number one provider of architectural audio in residential for many years running.

However, it is not only residential; Sonance speakers have been used for years in many high-profile commercial environments including:

- Dior
- Prada
- Gucci
- Louis Vuitton
- Mui Mui
- Tiffany & Co.
- Tom Ford
- All Saints
- Valentino
- Burberry
- Barney's of New York
- Hilton Hotels
- Hyatt Hotels
- Trump Hotels
- Disney Hotels

Sonance Professional Series has only been on sale since March 2017, and has already secured specifications and/or installations in the following (just to name a few):

- Wynn Properties
- Resorts World Las Vegas
- The Sands
- The Palazzo
- The Venetian
- Circa
- The Palms
- Winstar Casinos
- Russian River Brewing
- Four Seasons Resorts
- Freehand Hotel NYC
- One Macau
- Aman Hotels
- Trump Doral Golf Club
- Comcast HQ Philadelphia
- Legacy Records NYC
- Guggenheim Museum
- Lifetime Fitness
- Anytime Fitness
- Orange Theory
- Panera Bread
- Applebee's
- PF Chang's
- Buffalo Wild Wings
- Starbucks
- Chipotle
- Blaze Pizza
- TGI Fridays
- FedEx
- Apple
- Converge
- Yext
- Amazon
- H&M
- Nike
- Polo
- Rue21
- Express
- Armani Apartments
- Harvard University
- University of Connecticut
- World Trade Center Mall
- Hong Kong Airport
- Newark Airport
- Netflix

Key differences between Sonance Professional Series and its competitors are:

- Modern aesthetics including:
 - Bezel-less grilles
 - Smaller form factor
 - Square grille adapters to match downlights or HVAC grilles
 - Elegant minimalistic industrial design
- Better performance achieved by:
 - Sonance's Laminated Core Transformer delivering 8 Ohm performance in 70V/100V mode
 - Superior engineered drivers for best-in-class off-axis performance, consistent tonality at different volumes, much lower distortion and better reliability
 - Consistent voicing across the three different form factors
- Easier installation processes
 - One-piece magnetic grilles on the in-ceiling and pendants
 - FastMount bracket and front cable connector and tap on the surface mounts

In summary, Sonance Professional Series provides a better looking, superior sounding, more reliable and easier to install solution at *extremely* competitive price points! It's a little wonder so many commercial audio dealers and specifiers have made the switch!
